Panel
P-44 has been
terminated; I
don't think P-89
is ready for it yet.

MEMORANDUM FOR: APD PANEL

SUBJECT : Termination of APD Projects

REFERENCE : Memorandum to APD Panel dated 7 March 1955

1. It is requested that the APD Panel take all action that is necessary for the orderly completion of Project-44. No interest has been shown in this project since the Target Location Aid Kits were completed and instruction was given in their use by the contractor. The kits are available from the warehouse for the use of the operating and area divisions.

2. It is requested that the APD Panel take all action requisite to the termination of Project-89. The transistorized audio surveillance kits have been delivered to the operating group of ASD and were accompanied by carefully prepared instruction manuals. No further development is planned for these kits and they may be ordered from the contractor through PD/OL if more are needed in the future.
